SCORES OF RESOLUTIONS.

BUSY DAYS AT THE CONFERENCE.

METRODIST VOICES HEARD FROM ALL PARTS OF THE

The wide and varied character of the work which the Methodist Conference has before it was amply shown in the mass of details presented in the memorials and resolutions on Thursday and which con-tinued to occupy all of yesterday's session in the Opera House. All the questions of church manage-ment which have accumulated in four years are pushed forward for Conference legislation. Knough naterial has been presented in these two days to occupy the standing committees and their respective sub-committees during the remainder of the session. The least of these measures rarely fails to be of importance to thousands of persons if not in the United States, in Africa, Europe or Asia.

A number of such measures are now occupying the Committee on Missions. One of them provides for connecting the series of missions established by the Church in Idia with those in China. One of greater importance is the proposition on the part of the Japanese Methodists to unite the various sects of Methodists in Japan into an Independent Japanese Methodist Church. It is believed by the Japanese Methodists who number about 5,000 that their work will be greatly facilitated by such a measure. They propose to retain the missionaries of foreign countries who keep up the connection with their own churches as honorary members of the Japanese Church which will be of itself as distinct and self-supporting as the Canadian, Irish or British Wesleyan churches. The subject will come up later in the Conference in a report of the committee.

Dr. Thoburn, representing India, called up rester-

day a report on the Denmark Mission, asking that this mission be allowed by Conference to organize an Annual Conference. This was admitted and Dr. Thoburn then called up the report relating to the mission in the Malayan Islands and the Peninsula of Malacca asking that it should be organized as mission field. Dr. J. M. Reid stated that the Mission Committee had full authority to organize this field but it did not wish to do so without the approval of the Church by the Conference. After ne discussion the report was referred to the Committee on Missions with the approval of Conference in favor of organizing the field under the fitle of the Malaysia Missions.

PROPOSED REUNION OF THE CHURCH. The question of the reunion of the Methodist Church North and South was presented in a resolution by the Rev. Edgar O. McIntire, of the Austin, Texas, Conference, which after a brief discussion was referred to the Committee on the State of the Church. It was at the last meeting of the General Conference In New-York, in 1844, that the separation took place

The committee to which was referred the subject of the Ecumenical Conference of Methodism proposed to be held in the United States of America in the year 1891, reported that through the Rev. Dr. Stiers, of Syracuse, it had conferred with the fraternal delegates from the British Wesleyan Conference, the Irish Wesleyan Conference and the Methodist Church in Canada, and they recommended that an Ecumenical Conference of Methodists should be held in the United States in 1891; that the basis of membership and representation shall be substantially the same as of the Conference held in London in 1881; that the range of subjects presented for consideration shall be determined by the joint committee of the several Methodist bodies participating, including questions of doctrine and policy where national differences exist.

After a discussion as to whether the annual conferences should elect the representatives, the report was referred back to the committee for a recommenda tion on this subject. The Rev. Dr. G. N. Power, of Iowa, presented a memorial insisting that Civil Ser old be recognized in the Church as in the Civil Government. The resolution cited that the Church permits members holding offices under it to sit as delegates and participate in legislation, act in comnittees and criticise their own work and direct often their own compensation. The resolutions were referred to the Committee on the State of the Church. Another resolution proposed that the text books used in all the colleges and educational institutions under the direction of the Methodist Church should be printed by the Methodist publishing houses. This would mean the exclusion of nearly all text books now used in the schools. The matter was sent to the Committee on Education.

A proposition before the Conference yesterday, which is likely to be adopted, is to change the name of the Freedman's Aid Society to the Southern Educational Society. The resolution also provided that thirty per cent of the funds shall be applied to white schools in the South. The San Francisco delegation is anxious that the next General Conference, in 1892, shall meet in San Francisco, and a resolution to this effect was presented. Next Wednesday was appointed for a memorial session of the Bishops and members of the last General Conference who have s THE TAYLOR CASE TO COME UP TO-DAY.

Bishop Taylor has not been present at the sessions for two days. He has prepared his report, which he will read this morning, and the question will then come up on its reference either to a special committee, the Committee on Missions, or the Committee on the Episcopacy. Several papers were received from different conferences in regard to Bishop Taylor's work One of these, by the Rev. Dr. Jackson, of Ohio, proposed that a change should be made in the Discipline of the Church, incorporating his system of self-sup porting missions, and the employment of non-salaried nissionaries, who shall be responsible to Conference. Another resolution, presented by the Rev. Dr. George Leidy, of Central Pennsylvania, which was referred to the Committee on Episcopacy, reads: Whoreas, The heroic and devoted William Taylor, Bishop of Africa, has for four years labored unceasingly

and successfully to cultivate his great and peculiar field; and Whereas. The Book Committee at New-York have not recognized his claim to be supported out of the Episcopal Resolved, By the members of the Central Pennsylvania

Conference, in Conference assembled, that we deeply regret the course which the Book Committee judged it their duly to pursue, and that we respectfully memorialize the General Conference to give their carnest attention to the consideration of this question, and adopt such measures as will secure to Bishop Taylor the payment of his full claim from the Episcopal Fund for the last quadrennium, and reove any existing difficulty as to its payment in future.

A meeting of the Grand Army men held after the adjournment decided that the Grand Army dele-gates would call on Mrs U. S. Grant on Tuesday even-ing of next week. Last hight the Woman's Foreign Missionary Society held a meeting at the Motropolitan Opera House, which was addressed by prominent inis-tionaries of the Church from all parts of the world. ARRESTING A GERMAN SWINDLER.

A German, about thirty years of age, who has called

himself Buckhardt, Berger, Bochin, Miller and a num-ber of other names, was arrested and locked up at Police Headquarters yesterday on the charge of swindling booksellers. His trick is to get an introduction at the office of a bookseller and secure a printed letterat the office of a bookseller and secure a printed letter-head, then to forge an order on another bookseller for some expensive books and to sell the books for what he can get at a second-hand store. He has prac-tised the tidek in a number of cities since he came to this country adout three years ago. Several months ago he was locked up for a short term in St. Louis. It was said yesterday that in this city he had swindled A. S. Barnes & Co., Cassell & Co., Thomas Nelson & Co., J. W. Bouton J. B. Beers & Co., Baker, Voor-his & Co., B. Schiller, and Ivison, Blakeman & Taylor.

MEQUAID TO GO BACK TO WORCESTER.

Thomas McQuaid, the young medical student, who is accused of helping to murder Lillie Hoyle in Webster, Mass., was still locked up in a cell at Pelice Headquarters yesterday, but he probably will be taken to Massachusetts to-day. He has declared his innocence of the crime again and again and yesterdy he repeated his declaration to ex-Alderman Fair, of Wor-cester Mass., who was permitted to talk with him. Reporters have not been permitted to converse with the urisoner.

the prisoner.

Governor Hill has granted the requisition of Governor Ames, of Massachusetts, for McQuaid. Officer Whitney, of Boston, left that city with the extradition papers for New-York yesterday afternoon.

MUSIC AND MAY PARTIES IN CENTRAL PARK. If the storm of yesterday has cleared away and left the air warm this morning, the lawns in Central Park will be covered with May parties to-day. Several hundred permits have been issued by Secretary Burns for these parces and if the holders cannot use them the permits will then be transferred to Saturday of next week. The first concert of the season will also be given on the Mall, in Central Pack, by Cappa's 7th Regiment Band and the first Sunday concert will be given in Central Park to-morrow afternoon.

BUSINESS FAILURES DURING THE WEEK. The business failures in the past week, as reported by R. G. Dun & Co. of the Mercautile Agency, numbered United States and 17 for Canada, a total of 200 against 234 last week and 167 in the corresponding week last year. The disposition of the weekly review of trade is bearish as usual, but the fallacy of the argument is proved easily. Messra Dun & Co. say among

Gold exports, the advance to Bank of England rates, and bad crop reports, have made the business prespect less favorable. The advance by the Bank to 2 per cent, instead of 2.1-2, which was expected, disclosed a strong desire to arrest movements of capital in this direction.

Two small shipments of gold, hardly justified as yet by exchange rates, showed the belief of bankers that a check in foreign purchases of securities would presently make considerable specie experts necessity. The high price and deficient yield of wheat strengthened the impression that merchandise experts would not increase sufficiently to prevent the outgo of gold. At the same time, the failure of the Treasury for several days to obtain bonds at the price it is willing to pay revived the fear of withdrawal of money.*

TRIAL DAY SET FOR THE DISS DEBARS. THE MEDICM WITH NOT PLEAD INSANITY-MAY 23

THE DATE. Judge Gildersleeve yesterday morning in General

Sessions Court, Part I, fixed on May 23 as the date of the trial of Madame Diss Debar and her General. The prisoners' lawyers appeared in court yester-

day together with Assistant District-Attorney Bedford. Mr. Bedford said that Colonel Fellows desired to investigate fully this serious and mysterious ease. He had heard that the question of insanity of Madame Dies Debar was to play a part in the defence, and in view of that fact it would be impossible for any one here to fix on a day when he could be ready. John D. Townsend said: "I come here in behalf of a woman who has been persecuted, not prosecuted, to community. Now they want to say that she is in-If there is a same woman in God's world, she is sane. We have a perfect defence. There has

never been such a case. The committing magistrate sent it to the Grand Jury so that the charges might be speedfly tried. Now the people say that they do not know when they can try it." He continued in that strain and intimated that he had been engaged by Luther R. Marsh to defend the prisoners. Judgo Gildersleeve said that the Diss Debars ought to

have a speedy trial, and that he had no doubt that he could explain the case to the District-Attorney in ten minutes so that the latter would be ready in half an minutes so that the latter would be ready in hair an hour to go to trial. He then set the case down for May 23. Jerome Buck said that he did not know when he should be ready to institute proceedings to inquire into the "Princess's" sanity. Mr. Townsend said that "the insanity dodge would not go down." He would not plead insanity or demur to the indictment. He wanted to proceed to Irial. If the trial opens on May 23, Colonel Fellows cannot conduct it, because, in all probability, he will be busy with the Kerr case.

TRYING TO BREAK THROUGH QUARANTINE. Health Officer Smith is determined that every safegnard shall be thrown about the port against contagious or infectious diseases. On Thursday afternoon he arrested thirteen Italians who were in two small boats and about to communicate with their friends on the steamers Chateau Youem and Alesia detained at Quarantine with smallpox on board. Yesterday the Health Officer released them after a severe reprimand and he proposes to be more severe in the future.

DEMOCRATS WHO OPPOSE CLEVELAND. Among the Southerners at the New-York Hotel yestorday were three well-known North Carolinians, General T. S. Clingman, Colonel William Johnston and Calvin J. Cowles. Mr. Cowles is a Republican, but the others are Democrats, though not Administration Domocrais. In fact, Mr. Cowjes is not more strongly opposed

to Mr. Cleveland than is Colonel Johnston or General

Clingman. In this they represent a large and grow-ing element of North Carolina Democrats, and one that will be felt in the November election. RORBED AND BEATEN BY HIS DRUNKEN MOTHER Ann Green, of Elizabeth, N. J., yesterday discovered that her son Thomas, age thirteen, had \$100 stowed away in his trunk. This she appropriated. Coming home in the evening. Thomas missed both his money and his mother, and started in search of them. Finally he found his mother at Pulton and First ste., intextcated. On his remonstrating with her she attacked and beat him into insensibility. A crowd collected, and it took six men to separate them. The boy was sent to the hospital. and the woman to Police Headquarters by the officers. Thomas had been saving up his earnings for three years unknown to his mother. His condition is serious.

jury box. There were now twelve good-looking men

in the box and the prosecution had availed itself of

Colonel Fellows, after questioning juror No. 5 in

regard to his acquaintance with General Tracy, an-

would accept the jury as it stood. A recess was taken

intil 2 o'clock. Immediately after recess the counsel

for the defence began to pull the jury to pieces. Ex

tion of the records of the Chamberlain's office was begun.

On Monday Commissioner Shearman said he and his new associate would look into the private books and papers

William M. Ivins, at the office of William R. Grace &

Co., in Hanover Square. After they have been ther oughly overhauled, if nothing of a crooked nature is dis

vered, Maurice B. Flynn will be called upon to state

nder oath what the exact nature of his charges is, and give names, dates, etc. Mr. Shearman said also that

t might be found necessary to examine under oath both William M. Ivins and William R. Grace, as well as,

perhaps, other persons. This testimony will all be taken
